MEMORANDUM FOR THE RECORD

SUBJECT: NIE 91-58: The Outlook for Argentina

25X1A9a

1. At the conclusion of the 18 March Board meeting on the draft terms of reference I asked Messrs. [REDACTED] of ONE, what kind of support they would like from ORR. Inasmuch as those portions which deal with the economic activities of the Sino-Soviet Bloc in Argentina will form an extremely small portion of the estimate they felt, and I was inclined to agree, that a formal contribution from ORR would not be particularly appropriate.

2. They felt that they would like to be free to draw upon us to help them fill out any deficiencies of information which may become apparent while they are in the process of drafting the estimate. They also felt that ORR could perform a real service by critically reviewing the ORR contribution to the estimate. They will forward a copy of this as soon as they receive it. Contributions from other agencies will be due to ONE sometime between the middle of May and the early part of June.
